**Re: Monthly Report of Incidents Reportable under FIFRA 6(a)(2)
Products Registered to United Industries Corporation
For the Month of May 2008**

Dear Sir or Madam:

This submission is intended to provide EPA with additional information we have received since our last monthly report regarding reportable incidents involving pesticide products registered to various divisions of United Industries Corporation.

The enclosed report includes those incidents that are required to be accumulated for 1 month and then submitted to the Agency within 1 month of the end of that period.

I have enclosed a Summary Sheet of Reportable Incidents that includes all reportable incidents falling within the one-month accumulation category. This sheet provides the Case Number, EPA Registration Number or Active Ingredient, and Severity Category. The detailed Case Report, which includes all the information regarding each incident, is then attached immediately following the Summary Sheet.

If you have any questions, suggestions, or would like to discuss this report in more detail, please contact me at 314-683-2750 or via E-mail at bill.metzger@spectrumbrands.com.

Sincerely,

William H. Metzger
Vice President, Regulatory & Government Affairs

S: TC from consumer services

Caller stated that he has seen this product scattered throughout the entire house outside. Caller stated that someone has opened up the place packs and scattered them into his compost bucket, herb garden and all over his yard. PC asked caller if he thought that this was a malicious act and caller seems to think that his neighbor scattered them around to get rid of rats. Caller is

^{Person} no meds, allergic dog and cat hair; Girlfriend ^{Person} no meds, nka.

2p/1p

TOE: 2 months ago

O:sxs about 2 months. Caller - shortness of breath, h/a, leg cramping from knees down, bloody stools, blood at rectum, itching on leg. Girlfriend - h/a.

A: Dermal, ingestion exposure

R: PC reviewed with Vickie F. that unless caller and girlfriend ingested about 4 teaspoons of this it wouldn't be a problem. Since sxs are persisting to seek medical attention. PC also advised to wash off exposed skin.

cc/lq

NR1 - Exposure with no symptoms, NR2 - No/Invalid contact info, NR3 - No identifiable product, EPA code or ingredient
NR4 - Minor eye or skin irritation for residential use products with warning label, NR5 - Information call
